The First Hemp Testing Laboratory in Atlanta Georgia

Lab Tested and Quality Guaranteed

Peachtree Corners, GA (May 16, 2021) – Cannabiz Laboratory, a new Analytical Laboratory, has launched a website, www.cannabizlabs.com, a site aimed at testing Industrial Hemp and CBD products.

Cannabiz Laboratory provides patients, licensed cultivators, producers, consumers and dispensaries with important information about the safety, quality and potency of their Medical Cannabis products.

The new website combines a comprehensive listing of testing services that include Pesticide screening, Potency, Residual Solvents, Mycotoxins, Heavy Metals, Terpenes, Microbial Impurities, Moisture Content, Filth and Foreign Materials and a directory of news, education and information. The site will be of tremendous value to entrepreneurs, business professionals and small businesses who wish to sell quality compliant products.

“The analytical work that testing laboratories perform is critical from a health and safety perspective. We offer tests and services aimed to guarantee the quality and potency of all products,” said Kevin Middleton, the President of Cannabiz Laboratory. “We expect tremendous sales through our convenient, user-friendly web site.”

“More businesses are now looking for these kinds of solutions in the Atlanta area. With Cannabiz Laboratory, many business owners and entrepreneurs will now be able to safely test their pre-market products,” said Rena Bailey, COO of Cannabiz Laboratory. “Our goal is to establish long lasting relationships with our clients through accurate data generation, quick turnaround times and exemplary service”.

At Cannabiz Laboratory, the main mission is to provide unrivaled laboratory services with accurate results at an affordable price, to be fully compliant with all State and local municipalities and to be on the cutting edge of Hemp and CBD testing. They also plan to train and teach young adults analytical skills needed to become future Chemists.

The company currently employs a small staff of Chemists in the greater metropolitan Atlanta area and is looking to quickly expand operations to meet customer demands and client needs. The company's web site at www.cannabizlabs.com contains additional information.
